

**What a way to start the day. Laugh, laugh, laugh.**

This ought to make you feel better about your computer skills!  
If you skip any, you have to read the last one! Unbelievable, but  
supposedly all true!!!!

Tech support: What kind of computer do you have?  
Female customer: A white one...

Customer: Hi, this is Celine. I can't get my diskette out.  
Tech support: Have you tried pushing the Button?  
Customer: Yes, sure, it's really stuck.  
Tech support: That doesn't sound good; I'll make a note.  
Customer: No, wait a minute... I hadn't inserted it yet... it's  
still on my desk... sorry....

Tech support: Click on the 'my computer' icon on to the left of  
the screen.  
Customer: Your left or my left?

Tech support: Good day. How may I help you?  
Male customer: Hello... I can't print.  
Tech support: Would you click on "start" for me and...  
Customer: Listen pal; don't start getting technical on me! I'm  
not Bill Gates.

Customer: Hi, good afternoon, this is Martha, I can't print.  
Every time I try, it says 'Can't find printer'. I've even lifted the  
printer and placed it in front of the monitor, but the computer still  
says he can't find it...

Customer: I have problems printing in red...  
Tech support: Do you have a color printer?  
Customer: Aaaah.....thank you.

Tech support: What's on your monitor now, ma'am?  
Customer: A teddy bear my boyfriend bought for me at the 7-11.

Customer: My keyboard is not working anymore.  
Tech support: Are you sure it's plugged into the computer?  
Customer: No. I can't get behind the computer.  
Tech support: Pick up your keyboard and walk 10 paces back.  
Customer: ! OK  
Tech support: Did the keyboard come with you?  
Customer: Yes  
Tech support: That means the keyboard is not plugged in. Is  
there another keyboard?  
Customer: Yes, there's another one here. Ah...that one does  
work...

Tech support: Your password is the small letter "a" as in apple,  
a capital letter V as n Victor, the number 7.  
Customer: Is that 7 in capital letters ?

Customer: can't get on the Internet.  
Tech support: Are you sure you used the right password?

Customer: Yes, I'm sure. I saw my colleague do it.  
Tech support: Can you tell me what the password was?  
Customer: Five stars.

Tech support: What anti-virus program do you use?  
Customer: Netscape.  
Tech support: That's not an anti-virus program.  
Customer: Oh, sorry...Internet Explorer.

Customer: I have a huge problem. A friend has placed a screen saver on my computer, but every time I move the mouse, it disappears.

Tech support: How may I help you?  
Customer: I'm writing my first e-mail.  
Tech support: OK, and what seems to be the problem?  
Customer: Well, I have the letter 'a' in the address, but how do I get the circle around it?

A woman customer called the Canon help desk with a problem with her printer.  
Tech support: Are you running it under windows?  
Customer: "No, my desk is next to the door, but that is a good point. The man sitting in the cubicle next to me is under a window, and his printer is working fine."

And last but not least...

Tech support: "Okay Bob, let's press the control and escape keys at the same time. That brings up a task list in the middle of the screen. Now type the letter "P" to bring up the Program Manager."  
Customer: I don't have a P.  
Tech support: On your keyboard, Bob.  
Customer: What do you mean?  
Tech support: "P".....on your keyboard, Bob.  
Customer: I'M NOT GOING TO DO THAT!
